

FEE SCHEDULE

Weight Loss Therapy

- **Initial Visit** **\$295**

This fee covers the cost of the exam and consultation with the doctor, blood testing, EKG, a lipotropic vitamin B injection also known as LipoB (optional) and any additional elements of the doctor's prescribed treatment plan that are administered during that visit.

- **Return Visit** **\$120**

This established patient fee covers the cost of the consultation with the doctor and any additional elements of the treatment plan (including a lipo B injection) offered & administered during that visit.

- **Virtual Appointment** **\$120**

This established patient fee covers the cost of the virtual consultation with our provider. The appointment may be completed by Video Visit/Telemedicine/Phone. Must have established a care plan and previous in office appointment no greater than six months prior.

- **MRA (Mail-in Medical Refill Authorization)** **\$120**

This is a convenient way for busy patients to continue managed care with an authorized refill by mail or in person. Certain restrictions apply. Additional charges for any supplements mailed.

- **Supplements (shipping & handling fee)** **\$7**

***Supplements may be picked up within a week of the appointment at no additional cost or mailed to patients with an additional paid fee.

- **Return Visit with Lab/EKG update** **\$270**

(required every 1year)

- **PWC Lab Panel** **\$90**
- **EKG** **\$60**
- **Lipo B injection only** **\$30**

(or 3 injections for \$50 - must be used within 30 days of purchase)

The lipotropics are a combination of specific amino acids which are used by the liver to remove fat from the body. These injections help you to lose weight by boosting your energy and metabolism and increasing the removal of fat from the body.

Lipotropic Vitamin B injections are subject to alternate appointment scheduling and additional appointment fees.
